

# King County Secure Medicine Return Regulations

A sustainably financed, county-wide secure medicine return system

Taylor Watson  
Program Implementation Manager  
Secure Medicine Return  
Local Hazardous Waste Management Program in King County

April 8, 2016

# Risks from Medicines in the Home

## Drug Misuse and Environmental Impacts

- Unused, expired, and leftover drugs that accumulate in homes increase the risk of drug abuse, overdose and preventable poisonings

- Unwanted medicines flushed down toilets and sinks or thrown in the trash can end up in the environment.

# Proper Disposal Reduces Risks

Secure Medicine Take-Back Programs Protect Public Health

- Reduces the amount of drugs available for abuse, preventable poisonings and overdose
- Keeps waste medicine out of the environment
- Is a key part of a comprehensive approach

# Secure Medicine Return Regulations

King County Board of Health Chapter 11.50

- King County Board of Health passed Secure Medicine Return Regulations on June 20, 2013
- Regulations establish an industry-funded product stewardship model
- Program will collect and safely dispose of unwanted medicines from residents of the county

# Secure Medicine Return Regulations

## Product Stewardship Model

- System of convenient and equitable collection
- Funded, operated and promoted by drug manufacturers
- Collection sites participate voluntarily
- Medicines are properly destroyed
- Cannot charge residents a fee when purchasing or returning medicines

# Secure Medicine Return Regulations

## Local Hazardous Waste Management Program

- Cost reimbursement for up to 400 drop-boxes
- Program oversight to ensure compliance
- Issue civil penalties for non-compliance through Seattle-King County Public Health

# Secure Medicine Return Regulations

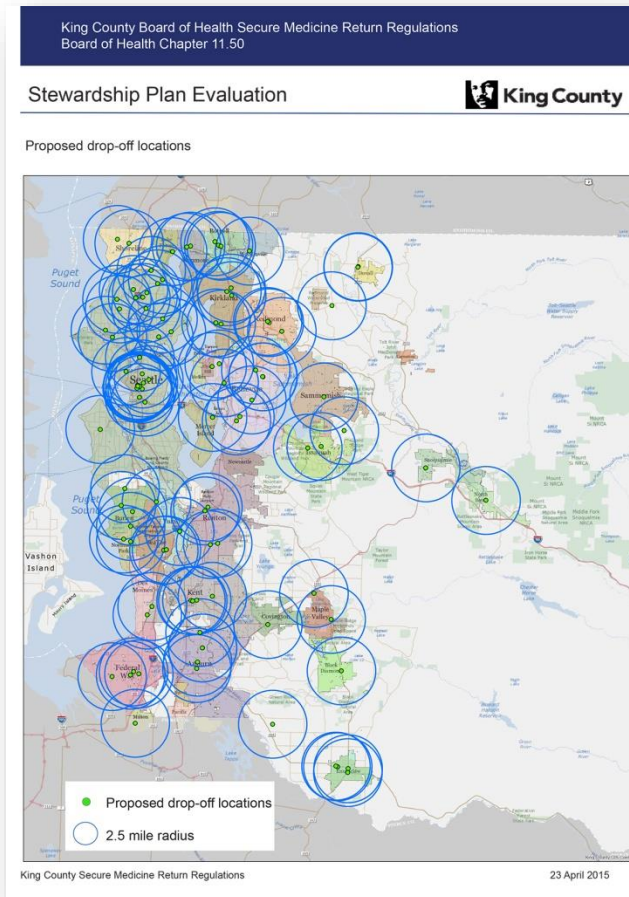

## Medicines Accepted

- Prescription and non-prescription (over-the-counter)
- Brand name and generic
- Sold in any form
- Does not include over-the-counter medicines regulated as cosmetics or supplements

# Secure Medicine Return Regulations

## Reasonable and Equitable Access

- One drop-off site in every city, town or unincorporated community service area.
- One additional site for every 30,000 residents
- Geographically distributed providing reasonable and equitable access

# Secure Medicine Return Regulations

## Differentially-abled and Homebound Residents

- Mail-back envelopes are available to residents who are differentially-abled or homebound
- Envelopes are available by request or through home care provider
- No cost to the residents to use mail-back envelopes

# Secure Medicine Return Regulations

## Collection Events

- Periodic collection events provide collection in underserved areas
- Events will be held twice a year
- No cost to residents to dispose of medicines at a collection event

# Secure Medicine Return Regulations

Program is Expected to be Available this Summer

- Residents can properly dispose of their unwanted medicines
- Collection will be available throughout the county
- Collection services will be promoted through stewardship website, toll-free number and print materials
- King County will also promote services to residents
